High Jump & Pole Vault

Pole Vault Mat For Competition

The pole vault mat is made from a PU foam. The mat measures 8x6x0.9m. The foam is covered in a weatherproof material. On top of the mat there is an additional wear and tear layer. This layer is equipped with a spike proof material. The mat itself is designed in a hollow chamber system to ensure a high elasticity and smooth air circulation. The mat also comes with a fully aluminium bar frame. It raises the mat by 10 cm to make sure it is not exposed to water.

Order No. SP 20080

Pole Vault Upright

The pole vault uprights are made from high grade aluminium profiles. They are designed for the guide rails. The robust construction guarantees ease of handling and stability. The height of the crossbar can be adjusted from 1.8 to 6.5m. The complete mechanism of the height adjustment is placed inside the posts. The height can be adjusted seamlessly. The uprights can be fixed in position with a brake. The final adjustment of the height can be done on site.

Pole Vault Rain Cover

The pole vault rain cover is made from water proof PVC. It prevents the mat from getting wet during rain or watering. It is available in different sizes.

Order No. SP 20090 (650 x 500 x 90cm)

Order No. SP 20100 (800 x 600 x 90cm)

Pole Vault Box

The pole vault box is made from stainless steel. The part towards the mat is further reinforced to cater to the loads applied from the pole. Additionally, the box is equipped with a drainage system, which ensures the water to run off after rain or watering. The box is shaped trapezoidal.

Order No. SP 20290

Cover For Pole Vault Box

The cover for pole vault box is made from aluminium. It exactly matches the box. It closes the box, when not in use. This is especially necessary, when it is part of the run way for the opposite pole vault facility. The cover is delivered without rubber and can be coated on site.

Order No. SP 20310

High Jump Mat

The high jump mat consists of a PU foam core and a PVC cover. The PVC cover is equipped with a spike proof surface on the top of the mat. It is rectangular shaped. The mat also includes an aluminium bar frame. The mat's purpose is to ensure a safe landing at the high jump. The item is available in different sizes.
