

Competition Soccer Goal Post Free Hanging System

Professional football goal type, Dimension $7.32 \times 2.44 \text{ m.}$ Compliant with the latest FIFA requirements. The goal post frames ($100 \times 120 \text{ mm}$), with a 2.5 mm wall thickness, are fitted with our integrated net suspension system. Goal corners (with corner strengthening on the insides). The goalposts are joined to the crossbar by means of a connecting plug and this guarantees enormous stability along with the option of dismantling the goal (for example for space-saving storage). The net hooks are integrated directly into the goal frame. This means that there are no external hooks, screwed or welded on, the net can be hung up or taken down easily and there is a significantly reduced danger of injury. Two net support poles are included. The goal post is white powder coated.

Order No. SP 110120 Powder coated
Order No. SP 110130 Aluminium surface

Bar Frame

The bar frame is made from a special aluminium profile. Its cross section is 50x50x3 mm. The profile is equipped with a slot to fix the net hooks in the profile. The bar frame consists of three parts. The two side parts and the rear crossbar. The projection of the bar frame is 2.00 m. All screws to assemble the bar frame are made from stainless steel and are supplied together with the item.

Training Goal Post Aluminium Surface

The practice soccer goal post is made of high-grade aluminium profiles. The inside dimension of this goal are 7.32x2.44 m. The front frame of the goal is made from oval 120x100x2.5 mm profile. The bottom frame is made from a rectangular hollow 80x60x3 mm. The top projection of the goal is 0.8 m. The lower projection measures 2.0 m. The item is available in a fully welded version and in a dismantle version for export. The goal is extremely robust and durable. It is equipped with the INTERLOCK net hook system, which ensures that the nets hangs perfectly.
